### COMMUNITY CHARRETTE

The City of South Milwaukee and the Community Development Authority are working collaboratively with the University of Wisconsin Milwaukee's Graduate Urban Planning Program to develop a plan addressing revitalization issues of South Milwaukee's Downtown area.

As a part of our planning project, we are conducting a community design exercise, or charrette, that will allow residents, business owners and the greater South Milwaukee community to participate in an interactive community planning session. This is an open house format that puts you in the planning seat and allows you to express your ideas on paper through maps, charts, mobile diagrams, drawings and discussion circles.

Your time is valuable to us, so please stop by and share your vision for downtown South Milwaukee!
