June 4, 2012

**RE: 17<sup>th</sup> Avenue / Parkway Drive Pavement Rehabilitation (Oak to Hemlock)  
& Hemlock Court (Parkway to Poplar)**

Paving of the remaining portions of the project has been delayed due to the amount of grading and base preparation required for asphalt installation. However, Black Diamond Group, Inc., is scheduled to pave binder (base) asphalt on **Thursday, June 7.**

On Thursday morning (7:30 a.m. estimated start time), any temporary gravel ramping to driveways will be removed in preparation for paving. Driveway access during the paving work is possible and the contractor will try to accommodate such needs, but parking on intersecting streets is the best option.

Following initial paving, some manholes will be adjusted by cutting through the base pavement. This is a typical construction practice to provide a better pavement ride when complete. Final surface pavement will not be installed until the entire project is ready; Currently planned for the week of June 18.

Restoration of lawn areas is scheduled to take place starting Wednesday, June 6.

Your patience with construction operations is appreciated. Please use alternate routes to 17<sup>th</sup> Avenue/Parkway Drive as much as possible during pavement removal and paving operations.

If you have questions or need additional information, please contact me at 414-762-2222, ext. 136, or by email: [vandercar@smwi.org](mailto:vandercar@smwi.org).

Sincerely,

Kyle Vandercar, P.E.  
City Engineer
